Water Resource Recovery District

Spring 2018

## Goleta Sanitary District Celebrates 75 Years with Forward-Facing Vision

Goleta Sanitary District's Board of Directors and staff, along with District stakeholders, elected officials, and others gathered at the District's facility to recognize 75 years of protecting public health and the environment through innovative wastewater services to the Goleta Valley. In celebration of this milestone community commitment, the District revealed a new logo that reflects its vision to be the region's leader in water resource recovery and reuse.

General Manager Steve Wagner unveiling the District's new logo.

President Majoewsky speaking about the history of the District.

In attendance to recognize this occasion were representatives from Congressman Salud Carbajal and Assemblymember Monique Limon's offices, Senator Hannah-Beth Jackson, Goleta Mayor Paula Perotte, Goleta Councilmembers Roger Aceves, Michael Bennett and Kyle Richards, Santa Barbara City Councilmember Gregg Hart, and representatives from partnering agencies such as UCSB, the Goleta Water District and others.

*"We were very excited to bring together our partners to recognize those who came before us and made the past 75 years so successful; as well as celebrating what the next 75 years of leadership and innovation in resource recovery will look like,"*

Steve Wagner, Goleta Sanitary District's General Manager/District Engineer

*"My fellow Board of Directors and I felt this is an important enough milestone to mark it by rolling out a new look that complements the District's mission and vision for the future; a vision focused on sustainability through innovation based on new technologies to maximize water resource recovery, reuse and energy self-sufficiency,"*

Steven T. Majoewsky, President of Goleta Sanitary District's Board of Directors

### Goleta Sanitary District Staff Lend a Hand in Montecito

Members of GSD's staff participated in emergency response efforts in Montecito following the January 9th disaster. Our field staff were some of the first responders who worked onsite using District equipment to help clear drainage basins and critical sewer lines, which provided some much-needed relief to the affected agency from the Montecito area. Our top-notch personnel responded quickly to mobilize in response to the emergency, providing mutual aid while still maintaining regular operations at our facility. Helping neighbors in their time of need is a cultural value we believe in strongly at the Goleta Sanitary District.

**PROTECTING** public health and the environment.

# GOLETA SANITARY

Water Resource Recovery District

“We protect public health and the environment by responsible wastewater collection, treatment, and resource recovery to meet present and future community needs.”

### Board of Directors:

Steven T. Majoewsky  
President

George W. Emerson

Sharon Rose

Robert O. Wageneck

District Engineer

## Laboratory and Technical Services Manager, Lena Cox Receives Prestigious Award from California Water Environment Association

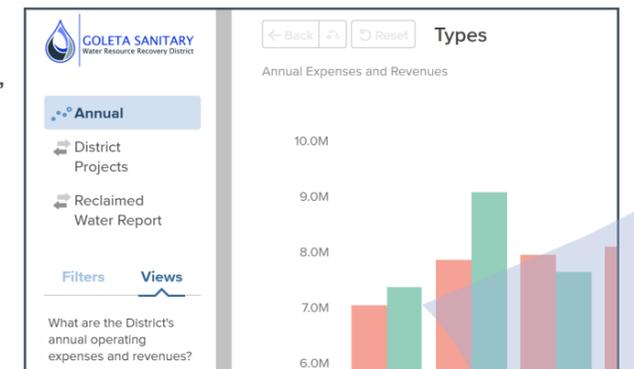

The Goleta Sanitary District and its staff have been recognized for many years as a leader in resource wastewater collections, treatment, and resource recovery. Among the most recent award is the California Water Environment Association’s Community Outreach and Education Project of the Year for the Tri-Counties, Lab Person of the Year for the Tri-Counties, and the statewide Crystal Crucible award to Lena Cox, Laboratory and Technical Services Manager award for outstanding contributions to the industry and professionalism.

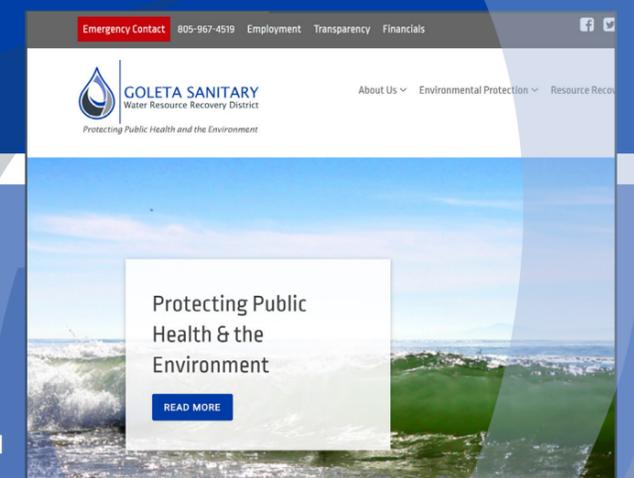

The District recognizes the contributions of all our staff and Board in running an industry-recognized agency committed to serving the public and protecting the environment. We take pride in our top-notch staff of professionals. Congratulations Lena!

## Check Out Our New Website and Visit Our OpenGov Portal

OpenGov is a cloud-based software designed specifically for governments focusing on budgeting, operational performance, and citizen engagement. OpenGov is the citizen’s window into the District’s annual finances. It provides our customers with an easy way to understand, analyze and compare our financial and performance data. The customized web pages are created to give people a quick summary of current and past financial information without having to be knowledgeable about the terms commonly used by government agencies.
